BOARD AND ROOM

The college makes a list of accredited boarding houses at which students may room. From this list a student is free to choose his own boarding house, but the college authorities stand ready at all times to lend their assistance. Students should have definite understanding with boarding house keepers with reference to terms and conditions, and are expected to stand by their contracts faithfully, though, of course, college officers are not parties to contracts made by students.

In order to find a place on the approved list, a home will conform to modern standards as to comfort and sanitation, and must agree to co-operate with the college authorities in the enforcement of regulations essential to the welfare of students. Men and women do not board at the same house.

Young women who wish to secure board or room at houses other than those on the approved list must in all cases secure in advance approval of the Dean of Women. Similar privileges for men must be secured in advance from the Dean of Men.

As a rule, boarding house keepers do not furnish bed clothing and linen. The student should bring with him these things to suit his individual needs.
